## About

I am a Frontend Developer with experience in ReactJS, dedicated to creating visually appealing, user-friendly, and responsive web applications. I am always eager to learn new skills and stay up-to-date with the latest industry trends. My focus is on writing clean and maintainable code. I am seeking an opportunity to join a dynamic team and contribute my skills and expertise.

PATHOR PLATFORMS PVT.LTD

CERTIFICATE

LETTER OF RECOMMENDATION

📅 nov 2022 – jan 2023

📍 remote

- Designed, built, and maintained highly reusable and responsive web applications using JavaScript, ReactJS, HTML, CSS and Bootstrap. Implemented UI and UX strategies based on our target goals to improve user engagement and experience.
- Utilized analytics and user feedback to continually test and improve the website's performance and functionality.
- Demonstrated strong problem-solving and critical thinking skills to troubleshoot issues and implement effective solutions, ensuring high-quality code and timely delivery.

## Projects

### NOTEBOOK

📅 September 2022

📍 Bengaluru

• It is a Notebook application, It uses react for Frontend and uses express to create and fetch the endpoints and MongoDB to store the notes, It uses JWT as authentication mechanism. Each note have a different id to store it and further update or delete it.

### NEWSCRATE

📅 August 2022

📍 Bengaluru

• A React application which fetches the news from NEWSAPI and display it in the Frontend It is further divided into different section of the news like Sports, Headlines, Science and others.

### PERSONAL PORTFOLIO

📅 February 2023

📍 Bengaluru

• My very own portfolio website which is built in React js and hosted on netlify. it is responsive to all the devices.
